

The background of the entire image is an underwater scene. Sunlight filters through the water from the top, creating a shimmering, dappled effect. The water is a deep, clear blue. In the lower right quadrant, a small, dark fish is visible, swimming towards the right. The overall mood is serene and natural.

INTRODUCING OUT EAST ROSÉ

Out East is pleased to present our inaugural product— a vibrant and crisp Côtes de Provence rosé produced and bottled in picturesque Monfort-sur-Argens, France. The grapes come from vines grown on the limestone and clay soils of “Green Provence”, giving the wine extraordinary freshness and vitality.

moments to last forever

OUT EAST

ORIGINS

The region's terroir is distinguished by pronounced mountainous reliefs which aid in trapping the perfect climate for growing world class vines. This fortunate topography lends itself to mild autumns and springs that alternate with hot summers and cold winters that are more pronounced than in the rest of the region - an ideal growing climate for our grapes.

make reveries memories

FOOD PAIRING

The complexity of Out East Rosé makes it an excellent wine to pair with a variety of foods, particularly more assertively flavored and spicy foods. Classic mediterranean dishes featuring garlic and hearty herbs such as thyme, rosemary, and oregano tend to pair very well with our wine. Simple shellfish and fish dishes prepared with olive oil and garlic can also be a perfect match.

better together

TASTING NOTES

Dry, crisp, and brimming with bright mineral tension, this exceptional Provence rosé features complex aromas of white peach, citrus zest, and wild red berries lifted by hints of white flowers and baking spices. Out East is composed of 60% Grenache and 40% Cinsault grapes.

TERROIR

The grapes come from vines grown on the limestone and clay soils of the cool climate “Green Provence,” giving the wine extraordinary freshness and vitality.
